Commander's Notes

Greetings from Kuwait! The Soldiers of the Steel Spike Battalion arrived safely and are fairing extremely well. Some of us took several days to adjust to the time and weather change, but we made the transition just fine. Our temporary living arrangements provide everything we need. We are sleeping on cots and living in a large tent city amidst several other units and have access to hot showers, telephones, internet, a post office, a gym, and several other amenities. Food is abundant and the dining facility even offers Baskin Robbins ice cream (although we don't have 31 Flavors to choose from – try 4). Soldiers are doing some good PT and conducting quality training to keep them busy. We are in high spirits, but miss you as much as you miss us.

The Steel Spike Soldiers in Kuwait have answered America's call to arms. They are the best our Nation has to offer. When you miss them, remember they are serving in the Nation's most respected profession.

SPIKE 6, Out!
LTC Carol Anderson
